*"Spanish for Life is the very best adult language instruction I've experienced in my adult years. I've learned French, ASL, and Spanish in college classrooms, continuing education settings, and language immersion school abroad. Holly Venegas offers a unique and positive approach that combines the most promising practices for auditory, visual, and kinesthetic learners. Every session is filled with energetic and highly engaging learning methods, excellent materials, music, and lots of practice. I am finally speaking Spanish in conversations with neighbors and friends, and I owe it to my first semester of classes with Spanish for Life." -- V. J. Elliott, Ph.D.*
